

P. RAMAKRISHNA

Lead UI UX Designer | Motion Graphic Designer | [Portfolio](#)

Hyderabad, India • p.ramakrishna.rk@gmail.com • +91 99858 64681

PROFESSIONAL SUMMARY

Lead Designer with 12+ years of experience across product design, UX/UI, Visual communication, Motion graphics, and digital experiences. Experienced in translating complex business and user requirements into intuitive product experiences, cohesive visual systems, interactive prototypes, and production-ready design deliverables. Combines hands-on design execution with end-to-end design ownership, visual direction, cross-functional collaboration, and design quality oversight. Experience spans enterprise SaaS, AI/GenAI products, procurement workflows, web and mobile applications, gaming, and digital content. Skilled in Figma, design systems, interaction design, motion-based communication, and AI-assisted design workflows.

CORE COMPETENCIES

Design Leadership & Creative Direction: Design direction, concept development, design reviews, visual quality standards, stakeholder presentations, cross-functional collaboration, mentoring and feedback.

Product Design: Product thinking, user flows, information architecture, user journeys, wireframing, interaction design, usability evaluation, high-fidelity prototyping, responsive experiences.

Motion Graphics & Interaction: Motion graphics, UI animation, micro-interactions, product explainers, storyboarding, visual sequencing, video editing, animation principles.

AI & Emerging UX: AI/GenAI Product Design, Agentic AI Workflows, AI Prototyping, Figma Make, Claude design & development

Visual & Brand Design: Visual storytelling, art direction, layout and composition, iconography, illustration, brand communication, digital campaigns, presentation design.

Design Systems & UI Architecture: Design Thinking, Competitive Analysis, User Journey Mapping, Agile/Scrum, A/B Testing.

Tools: Figma, Sketch, Photoshop, After Effects, Illustrator, Figma Make, Jira.

PROFESSIONAL EXPERIENCE

Kore.ai, Hyderabad | November 2023 – Present

Lead UI/UX Designer

- Developed product animations, promotional videos, and motion-based visual content using After Effects, combining animation, transitions, and visual storytelling to communicate ideas effectively.
- Lead end-to-end UX and product design for AI-powered enterprise applications, from requirements and workflows through UI, prototyping, validation, and handoff.
- Used Figma and Figma Make to rapidly prototype and build functional front-end experiences, exploring design-to-code workflows and validating interactions before development.
- Designed Board Observer experiences for meeting management, AI-assisted workflows, agenda management, configuration, and AI insights.
- Collaborated with PMs, engineers, analysts, and stakeholders to translate complex requirements into clear, scalable experiences and reusable design-system patterns.
- Provided design reviews, creative feedback, and UX guidance to team members, improving overall design quality.

Innerscore, Hyderabad | April 2021 – Nov 2023

Sr. UI UX Designer

- Designed intuitive web and mobile experiences, delivering scalable, user-centered solutions from concept to implementation.
- Conducted user research, defined user flows, created wireframes, high-fidelity UI designs, and interactive prototypes to validate design solutions.
- Collaborated closely with product managers, stakeholders, developers, and fellow designers to translate business requirements into user-centered experiences.
- Designed visual assets, icons, illustrations, and reusable UI components while supporting implementation throughout the development lifecycle.

Timuz Solutions Hyderabad | May 2012 – April 2021

Sr. UI Designer & Motion Graphics Designer

- Designed intuitive user interfaces for Web & mobile Apps, Games, translating product requirements into user flows, wireframes, visual designs, and interactive prototypes.
- Created engaging motion graphics, animated UI elements, and visual effects for games, mobile applications, and digital experiences to enhance storytelling and user engagement.
- Worked across multiple products in fast-paced environments, balancing user needs, business requirements, and technical constraints.

Innerscore, Hyderabad | April 2011 – May 2012

Graphic Designer

- Designed digital creatives for an EdTech platform, including Web pages, illustrations, icons, and branding materials.
- Developed graphics and motion-based content for technology-focused products.
- Collaborated with cross-functional teams to deliver high-quality visual solutions.

AI & MODERN DESIGN PRACTICE

AI Product Design: AI/GenAI experiences, agentic workflows, conversational UX, explainability, and human-in-the-loop interactions.

AI Prototyping: Rapid concept exploration and functional prototypes using Figma Make and AI-assisted workflows

Design + Front End: Translating Figma concepts into responsive, interactive front-end prototypes to validate UX and communicate implementation intent..

EDUCATION & CERTIFICATIONS

- PG Diploma In Multimedia
- B.com
- Business Analysis
- Google UX certification
